USA, c. 1948 | mahogany plywood
30 h × 72 w × 35½ d in (76 × 183 × 90 cm)

Edgar Tafel worked for Frank Lloyd Wright, and he is the author of "Apprentice to Genius," a widely read biography of his time with the American master builder. Tafel was Wright's key draftsman on Fallingwater in Bear Run, Pennsylvania. This table and cabinet clearly illustrate the influence Wright had on Tafel.
