CHARLES AND RAY EAMES Aluminum Group chairs, pair

Herman Miller | USA, 1958 | aluminum, leather
34½ h × 25 w × 27 d in (88 × 63 × 69 cm)

A particularly fine example of this design; the aluminum group seating is a precursor of the high-tech architecture of the 1970s. Sir Norman Foster and Renzo Piano often utilized this articulated form to furnish their interiors.

Estimate: \$1,000–1,500

Result: \$819
