HERBERT FERBER

untitled

USA, 1958 | welded lead and copper
41 h x 15 w x 15 d in (104 x 38 x 38 cm)

A fine example of Ferber's mid-career work, the sculpture gracefully synthesizes the figural representation of his early years and the highly abstracted, non-referential forms of his later years. The verticality of the piece and the anthropomorphic appendages lend a human dimension to the stoic, monumental design. Signed and dated on side. Exhibited: New England Center for Contemporary Arts, Brooklyn, CT

Provenance: New England Center for Contemporary Arts Sotheby's, November 21, 2000 Private collection

Estimate: \$15,000–20,000

Result: \$14,400
