

# IMPORTANT 20TH CENTURY DESIGN

268

**ROBERT GAGE**  
table lamp, model T-6-G

Heifetz Manufacturing Co. | USA, 1951 | lacquered masonite, enameled metal, brass  
18½ h × 8 w × 8 d in (47 × 20 × 20 cm)

Robert Gage's design for Heifetz utilizes four pivoting panels to control the direction of light. When composed as a box, the light is directed upward. By rotating the panels, light is emitted from the sides, creating indirect light. This form received Honorable Mention in the Museum of Modern Art's Low Cost Lighting competition.

**Estimate:** \$4,000–6,000

**Result:** \$2,400
