PHILIPPE MOREL
Best Test 1-400 chair

France, 2004 | lacquered wood
36½ h × 20½ w × 21 d in (93 × 52 × 53 cm)

Morel used a genetic algorithmic calculation, a process that mimics evolution and natural selection, to design this chair. Starting with a cube, he applies the parameters created by the algorithm to achieve the final form.

Estimate: \$2,000–3,000

Result: \$3,000
