HARRY BERTOIA Sound Box

USA, c. 1960 | pine and pine plywood
9½ h × 10 w × 10 d in (24 × 25 × 25 cm)

This sound box was hand-built by the artist when he was first experimenting with his sound sculptures. The box served to amplify the sound of his Sonambients as well as enable the artist to measure the volume of the sound.

Provenance: Acquired directly from the artist's son, Val Bertoia by the present owner

Estimate: \$700–900

Result: \$2,750
