## PAUL McCOBB

internationally known contemporary designer pioneered a new way of living when he created the Planner Group, the most noted contemporary furniture group for today's home. PAUL McCOBB's trend-making designs have been an influence in all facets of the home furnishings field. He has won many national awards and has been represented in museums throughout the world. PAUL McCOBB is accepted as the outstanding exponent of better design in our era.

## THE PLANNER STORY

PLANNER — America's foremost coordinated group of contemporary furniture was designed to satisfy the needs of those who seek superior design in their homes. PLANNER is accepted as the perfect answer for today's interior, as shown by the widespread acclaim and honors given to PLANNER and its designer PAUL McCOBB. Leading architects, decorators, magazine editors, model home builders — all praise PLANNER for its simplicity, its scale and its refined lines, and above all for its variety of use in many individualized ways. PLANNER GROUP's versatility is achieved through a modular system of basic storage units. The chests and cabinets are offered with either attached legs or platform bases, the smaller cases and storage pieces are set on benches or used in larger multiple unit groupings. Other PLANNER units such as dining tables, occasional tables, chairs, beds, desks, and an extensive collection of upholstered seating units make it hard to conceive of a problem in today's living that cannot be solved with this moderately priced furniture. It is an "open stock" group constructed of solid selected maple, available in four distinctive finishes: natural, tobacco, walnut and black, with coordinated colored door panels, and several styles of hardware. This folder will aid you in your selection and provide complete information about the PLANNER wood pieces and PLANNER upholstery designed especially for your contemporary home — THE PLANNER GROUP by Paul McCobb.
